

Component repair business support (d/m/w)

Main mission: support the business team with all activities related to business forecast, planning and follow-up.

- As a member of our team, you will be involved in the various activities of a profit & loss entity: preparation of operational plan and forecast, monitoring of financial targets and contracts (actuals, cost to completion), as well as the monitoring of internal costs/budget, working capital.
- You will also be involved in daily activities, such as pricing of repair orders or supervising the calculation of customized repair solutions
- You will interface with your business colleagues in AH and AHD, as well as with our finance counterparts
- What we expect from candidates: experience with complex calculations and financial models, good communication and interpersonal skills, autonomy
- A solution-oriented mindset is a must, our business requires a lot of adaptability
- A good level of English and German is mandatory as you will work in an international team. Speaking French would be a plus
- IT-wise: you are fully proficient with Excel and SAP
- This job requires an awareness of any potential compliance risks and a commitment to act with integrity, as the foundation for the company's success, reputation and sustainable growth
